REEDEREI

## Safety-, Security-, Health- and Environmental Protection

# Policy

These are our main principles:

- To ensure safety and security at sea
- To prevent human injury, loss of life and damage to the environment

In order to achieve these principles we have set up the following rules:

- We will at any time follow all mandatory national and international Codes, guidelines, rules and regulations regarding safety and the protection of the environment and will take into account the recommended ones.
- We do our utmost to prevent emergencies (by using checks, safety measures, technical support and ongoing risk assessments) and to be prepared for emergencies in order to limit sequential damage.
- We will continuously improve our safety management skills.
- Our system will be under continuous surveillance by internal auditors.
- The qualification, and motivation of our personnel is the key factor in our activities (including a thorough familiarization and ongoing in-service training).
- We strive for the continuous improvement of our services.
- We operate ships, which are inspected regularly and well maintained.
- We keep all equipment in a safe, environmentally correct and productive condition.
- We try to learn from our mistakes and to avoid repetition.
- Any officer or crew will be dismissed at his own expense and reported to the local authorities according to Memorandum of Understanding "Anti drug abuse Act" when he failed to comply with the companies Drug & Alcohol Policy.

Bremen, 2015-02-05

  
Mr. Frank Behrens  
(CEO)
